README Profile

About Me

I'm a FullStack Developer and Cloud Architect with a passion for creating scalable and robust solutions. I specialize in JavaScript, TypeScript, and AWS, and have experience with a variety of other technologies.

Certifications

- **AWS Certified Solutions Architect – Associate:** Demonstrated expertise in designing distributed systems on AWS. [AWS Certified Solutions Architect – Associate](#)

What I Do

- ☁ **Cloud Architecture:** Design and optimize cloud infrastructures.
- 💻 **FullStack Development:** Build responsive and efficient applications using modern frameworks.
- 🔧 **DevOps:** Implement CI/CD pipelines and manage cloud services.
- 🛠 **Expert in:** TypeScript, NestJS, React, React Native

Current Focus

- 🌐 **AWS Progression:** Enhancing my skills and certifications in AWS.
- 🚀 **FullStack Projects:** Working on innovative full stack projects.
- 🛠 **Freelancing:** Available for freelance work and collaboration on exciting projects.

Create a repository with your ID

Create a new repository

A repository contains all project files, including the revision history. Already have a project repository elsewhere?

[Import a repository.](#)

Required fields are marked with an asterisk (*).

Owner *

Repository name *

⚠ The repository Sprenger07 already exists on this account.

Sprenger07/Sprenger07 is a ✨ *special* ✨ repository that you can use to add a README.md to your GitHub profile. Make sure it's public and initialize it with a README to get started.

Great repository names are short and memorable. Need inspiration? How about [laughing-giggle](#) ?

Description (optional)

Public

Anyone on the internet can see this repository. You choose who can commit.

Private

You choose who can see and commit to this repository.

Initialize this repository with:

Add a README file

This is where you can write a long description for your project. [Learn more about READMEs.](#)

Quick-start : write your Markdown
